Association of Physiotherapists.

Status of profession:

Professional Title/ Qualification: The title and the professional activity is protected by the state. The professional title is "diplomirani fizioterapevt". The rules of professional conduct are determined directly by the state through national legislation. The physiotherapist must be state registrated and obtain a licence to practice. The Slovenian Association of Physiotherapists has established a code of ethics for physiotherapists. The national authority responsible for the physiotherapy profession in Slovenia is the Ministry of Health. Employment opportunities for physiotherapists cannot be guaranteed.

Practice of physiotherapy:

The physiotherapy services in Slovenia are not determined by the profession. The physiotherapist is mainly allowed to determine the clinical intervention of physiotherapy him/herself. Slovenia offers both public and private physiotherapy services. The insurance cover for physiotherapy is paid both through the national health care system and privately by the patient.

Twinning:

The Slovenian Association of Physiotherapists has not yet established any twinning program but the association hereby announces its wish to do so.
